

Install POWERLED Application on a Laptop with WiFi Capabilities.

Each Sign has an Identifier on the face

A	392876
B	322161
C	329160
D	392582
E	322157
F	322087

Connect your WiFi to the sign based on the identifier.

Run PowerLed and press the Search tab.

Use the software to create your messages:

Program – Creates the unique group to display -
Multiples can be timed based on time and date information

Text- Add text message
Set Scrolling Speed 10-25 15 is normal speed
Select Font and Size
(fonts are based on fonts on your laptop – size limit to your specific sign)

Add more Program and then add Text messages as needed

Press SEND - Data is sent to the sign and should display
